

INVITES YOU TO

WORLD ENVIRONMENT DAY 2021

THEME- ECOSYSTEM RESTORATION

Dear Parents,

Greetings for the day!

World Environment Day is celebrated across the world on June 5. It's important to care for the environment we live in, not only for our health but for our survival too. So, Chistiya International School has decided to sensitize our students about various environmental issues and build in them, a positive and caring attitude by conducting appropriate activities on 5th June 2021.

We are inviting our students to take part in these eco-events together!

Nursery, PP1, PP2
